ANSHIKA GUPTA

Kanpur, Uttar Pradesh | +91 7985401007 | anshikagupt1905@gmail.com | linkedin.com/in/anshika-gupta-94382935
GitHub: github.com/anshikagupta337-lgtm | LeetCode: leetcode.com/u/c4GQLTDbWx

OBJECTIVE

B.Tech Computer Science & Engineering student seeking a **Software Development internship**. Experienced in building **full-stack web applications** (React, Spring Boot, MongoDB, Docker) as part of a 6-member team, including an **LLM-powered chatbot**. Strong foundation in **Python, Java and data structures**, with **155+ LeetCode problems solved**. Looking to apply technical and problem-solving skills to real-world software solutions.

EDUCATION

B.Tech, Computer Science & Engineering — Pranveer Singh Institute of Technology (PSIT), Kanpur | Expected 2028
Current SGPA: 7.2 | Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Senior Secondary & Secondary (UP Board) — Onkareshwar Saraswati Vidhya Niketan Inter College, Kanpur
12th: 79.4% | 10th: 86.5%

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript
Web & Frameworks: React, HTML, CSS, Tailwind CSS, REST APIs, Spring Boot (project exposure)
Tools & Platforms: Git/GitHub, VS Code, Docker, MongoDB, WebSocket/STOMP, JWT, LLM APIs
Core Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

EchoRoom — Real-Time, Self-Hostable Chat Application | Team of 6 | Jul 2026 – Nov 2026 | GitHub Repo
Tech: React, Tailwind CSS, Spring Boot, MongoDB, WebSocket/STOMP, JWT, Docker | Role: Frontend, AI chatbot

- Built the **React + Tailwind frontend** with **6 real-time features**: live messaging, file sharing, emoji reactions, typing indicators, online status, and read receipts, all over **WebSocket/STOMP**.
- Developing an **AI chatbot using an LLM API**, so users can chat with an in-app assistant.
- Wrote **modular, reusable components** for chat moderation, making it easier to add new features later.
- Worked in a **6-member Agile team**; the app includes **JWT authentication** and an **admin dashboard with role-based access**.
- **Dockerized** the frontend, Spring Boot backend, and MongoDB with **Docker Compose** for self-hosting without third-party cloud services.

IncidentIQ — Security Incident Investigation Tool | In progress

- Building a tool that **correlates scattered security events** (login records, server logs, database activity, API/network logs, user actions) into a **single incident timeline**.
- Designing detection of suspicious patterns, such as an account compromise followed by bulk database access and likely **data exfiltration**, and generating a **plain-language incident summary**.

CERTIFICATIONS

- Python for Data Science
- Introduction to Generative AI Studio
- Cyber Job Simulation (cybersecurity fundamentals)
- Programming Fundamentals Using Python – Part 1
- Programming in C
- HTML5 – The Language

ACHIEVEMENTS & ACTIVITIES

- Solved **155+ LeetCode problems in Java**, practicing data structures and algorithms.
- Participating in **HackShift**, a hackathon at **IIIT Delhi**.
- Participated in the International Conference on Next Generation in Science and Engineering.
